WANNA BE

WANNA BE

California

Walnut, California

Greetings from California,
 Our state is the 31st state in the United States. It has four regions; the valley, mountain, desert, and coast. The city of Walnut is located between the coastal and mountain regions near Los Angeles. The city was named Walnut because the land had a lot of Walnut trees. My school is Cyrus J. Morris or C. J. Morris for short. It is an International Baccalaureate school. We learn math, social studies, and Jiji math.
 Sincerely,
 Mrs. Peterson's Class
