# Montana

**GRIZZLY BEAR CUBS** remain parked and cautious, as one sounds the alarm for mom's assistance. Usually seen with one or two cubs, the nearby grizzly mom will have this trio of trouble in tow for two to four years, before each strikes out on its own.

Montana's Yogo sapphire is included in the Crown Jewels. Montana has more different species of mammals than any other state. Have questions? Contact us at [mrsdews.blogspot.com](http://mrsdews.blogspot.com)
