Photographer-David A. Bast

Hi! We are a first grade class of 15 children (9 girls and 6 boys) living in Bristol, NH, which is a small town in the Lakes Region of New Hampshire. We are surrounded by lakes, mountains and lots of trees! We spend the summer swimming in Newfound Lake and the winter sledding and skiing (which is the NH state sport). During Feb. and Mar our school even has a ski program where we can skip up to leave school early once a week to ski at a local ski slope. NH is the home of Mt. Washington, which is the highest peak in the Northeast. The 2nd highest wind speed (231mph) ever recorded on Earth was here. We love fall and the beautiful colors of the foliage. Although we live in NH, we LOVE Boston and cheering on the Red Sox, Patriots and Bruins.
