South Dakota

SIoux FALLS – The rushing waters of the Big Sioux River cascade gracefully over tons of smooth pink quartzite, creating the dramatic, enchanting falls that give the city of Sioux Falls, South Dakota its name.
RP 358 Photo by Rushmore Photo & Gifts, Inc.

Our state, South Dakota, is so great because we have Mt. Rushmore, the world's ONLY Corn Palace, the Badlands, and much more!

We have 27 kids in our 1st grade class. We have 5 sections of 1st grade in our school. And our elementary school is one of 26 elementary schools in Sioux Falls!

P.S. I want to visit you!

Please visit our classroom website and communicate more with us there!
